WORK EXPERIENCE

Front end developer

Marabox.com.au

10/2021 - Present

Remote

Marabox.com.au is a website for people who are looking to migrate to Australia. It acts as a toolbox which offers various information and tools.

Achievements/Tasks

- Collaborated with product managers to design cutting edge features.
- Ensured the technology implemented promoted efficiency, speed, and smooth functionality.
- Maintained work quality despite 6 and a half hour time difference between me and the rest of the team.
- Usage of Nextjs framework to greatly increase the SEO of the project.
- High adaptability to the company's necessities such as learning Sanity (headless cms) and groq (The query language required to retrieve, and send data to Sanity), since the role of a back end developer was not occupied.
- Maintained dark and light color scheme along with other languages such as English, Persian and Chinese.

Junior front end developer

Ytjobs.co

07/2020 - 06/2021

Remote

Ytjobs.co is a website for job opportunities or services related to YouTube.

Achievements/Tasks

- Test and deploy design features in a timely manner.
- Usage of reliable JS and CSS libraries such as Styled Components and React-query in order to ensure quality and clean code.
- Work to achieve a balance between functional and aesthetic designs.
- Apply engineering best practices. Work to solve complex challenges with the utilization of modern web application development processes and standard methodologies.
- Developed a modern and responsive website that increased user engagement.
- Continually tested the site for usability while addressing any bugs found in a timely manner.

CERTIFICATES

Harvard CS50 course On computer science (12/2024)

I earned my CS50 certificate by demonstrating my mastery of fundamental computer science concepts through projects.

ielts 7.5 band score (12/2023)
